

Artificial Turf for Soccer Pitch

The Wajufo artificial turf is your perfect choice for sports field purpose, we provide professional synthetic turf solution for soccer field.

Our special formula of the grass fiber gives the artificial turf a soft feeling and perfect performance on different tests including the ball roll, vertical ball rebound, shock absorption and skin friction.

The Wajufo artificial grass meets with the international standard strictly, it' s safe and friendly to the athletes and the environment.

Are you tired of spending too much time and money in maintaining your soccer pitch? The Wajufo grass will save you from the trouble of watering, mowing, fertilizing the lawn, and makes your pitch works well in four seasons.

Courage™

- Yarn shape: C
- Pile height: 50mm
- Gauge: 5/8 inch
- Stitches/m: 160
- Density/m²: 10,080
- Dtex: 11,000
- Backing: PP+Mesh+SBR Glue

The Courage™ is designed in a C shape, very smooth and soft, so it's more durable than the common fibers. This shape helps reduce sunlight reflection, friendly to the players under sunshine, and give uniform traction and reduce shock to the joints and ankles.

Power™

- Yarn shape: Spine
- Pile height: 55mm
- Gauge: 5/8 inch
- Stitches/m: 170
- Density/m²: 10,710
- Dtex: 12,000
- Backing: PP+Mesh+SBR Glue

The Power is designed with a "Spine" running through the middle of each blade, the yarn looks like the natural grass and makes the turf resilient and wear resistant enough, gives uniform traction and reduce shock to the joints and ankles, very friendly to the athletes.
